Hello all amateur designers, I know that a few of us are trying to make their first steps with CAD using the free!ship programm.. Click every part of it to e yellow and then “controlcurve” The line will become violet now and can be marked (yellow and violet) and cecked for fairness after deactivating the controlnet (points and red lines).. See the attached jpeg of a design I’m working on Prost, Rick Hi Rick, mark just the horizontal (red) chinelines if you want to check the hull for fairness, not vertical ones.. Georgios has 1 job listed on their profile See the complete profile on LinkedIn and discover Georgios' connections and jobs at similar companies.. Here is a link to a tutural that helped me a lot It shows the basic steps from the start over making the chines, fairing the lines to get the developed panels. 773a7aa168 [Autocad 2017 Keygen For Windows 10 And Software](#)
